

A stylized illustration of a plant with long, thin, vertical leaves and a few small, dark buds or flowers at the top, rendered in a light green color against the background.

**Williamsburg Environmental Group, Inc.
Is Pleased to Announce the Addition of
Michael O. Keeler
To Our Staff as a
Senior Environmental Planner.**

for more information, please visit us at wegnet.com

Michael Keeler is hitting the ground running as he joins the Williamsburg Environmental Group, Inc. (WEG) team. He brings with him more than a decade's worth of experience in the environmental industry ranging from key project management to technical writing at both VDOT and the Virginia Dept. of Environmental Quality (DEQ).

His latest work includes writing the DEQ's *Stream Impact and Compensation Assessment Manual* and co-authoring the U.S. Army Corps of Engineers' and the Virginia Department of Environmental Quality's *Unified Stream Methodology*.

Michael remains one of the most recognized authorities in Virginia in the area of stream assessments, restoration design, and mitigation banking.

Michael, a former Virginia Tech Hokie with a Bachelors of Science degree in Forestry and Wildlife, will join WEG as a Senior Environmental Planner in our Richmond, VA office:

7501 Boulders View Dr.
Suite 205
Richmond, VA 23225
Phone: (804) 267- 3474
