Company Capabilities

...dedicated to developing simple, cost-effective solutions to today's complex environmental issues without "headaches" for our clients.

Williamsburg Environmental Group, Inc.

Williamsburg Environmental Group, Inc. (WEG) is a full-service environmental consulting and engineering firm that serves both the public- and private-sectors in providing cost-effective solutions to today's complex environmental issues.

The company was founded in 1990 and has grown from two partners to a present staff of nearly 100 professionals, with offices located in Williamsburg, Richmond, Fredericksburg, and Herndon, Virginia, as well as Lakeland, Florida. The multi-disciplined WEG staff includes licensed and registered professional engineers, landscape architects, planners, wetland scientists, ecologists, certified arborists, biologists, professional soils scientists, and regulatory specialists. WEG works closely with clients throughout the feasibility, planning, design, and construction phases of a project and combines specific skills and expertise to deliver superior service and results every time. The firm is sensitive to important environmental values and the firm strives to be involved in projects that are supportive of these values.

Company Services

WEG offers specialized environmental services in the following areas:

Wetlands & Ecology:

- Wetland Delineation and Mapping
- Habitat Evaluation
