Utilities Capabilities

Environmental Consultants

...dedicated to developing simple, cost-effective solutions to today's complex environmental issues without "headaches" for our clients.

**WILLIAMSBURG
ENVIRONMENTAL
GROUP, INC.**

Williamsburg Environmental Group, Inc. (WEG) is a full-service environmental consulting firm that serves both the public and private sectors in providing cost-effective solutions to today's complex environmental issues.

From simple site assessment projects to complex, multi-mile undertakings, WEG has provided environmental and engineering support to the utility industry for over 20 years. We are extensively familiar with linear projects (both overhead and underground), including water, wastewater, electric, gas, cable, and fiber optic upgrades, repair, and new construction.

Regulatory Support

Timely approval and authorization is critical to maintaining required construction schedules and completion of projects. Services include:

- Joint Permit Application
- Agency Coordination
- Mitigation Design and Contract Coordination

Water Resources Engineering

WEG's Professional Engineers can provide permit documentation for stormwater discharges to engineering design and studies needed for the preparation and completion of Erosion & Sediment control plans:

- NPDES and State Stormwater Permitting
- Construction Plan Review
- Hydrologic & Hydraulic Modeling and Analysis
- Erosion & Sediment Control Plan Preparation
- Standards and Specifications Updates/Reviews

Utilities Services

Environmental and Natural Resources Surveys

WEG can provide a variety of services relating to the identification of natural resources within the proposed project area. These services are useful during the planning and development stages and for permitting purposes. Services include:

- Offsite Delineation
- Wetland Delineation and Corps Confirmation
- Flagging of Waters of the U.S.
- Threatened and Endangered Species Surveys
- Macrobenthic Taxonomic Surveys
- Cultural/Archeological/Architectural Coordination

Graphical and GIS Support

Project graphics and mapping provide comprehensive overview and environmental, cultural, and physical constraints to project construction. Maps depicting the following features can be generated for permitting, review, and planning purposes:

- Project Impact Areas
- Environmental Constraints
- Alternative Route Assessment
- Sensitive, Threatened and Endangered Species
- Cultural Resources
- Construction Access Planning and Identification
- DOT Entrance Permit Graphics

Construction Administration

WEG's Construction Administration Team can provide onsite assistance during active construction to maintain compliance with project and permit conditions. Services include:

- Permit Compliance Monitoring (NPDES, VSMP, etc.)
- Construction Monitoring
- Mitigation Monitoring
- Invasive Species Control
- Herbicide Application
- ROW Revegetation Plan and Monitoring

Williamsburg Environmental Group, Inc. is dedicated to developing simple, cost-effective solutions to today's complex environmental issues without "headaches" for our clients.
