# Environmental Compliance Services

Environmental Consultants

...dedicated to developing  
simple, cost-effective solutions  
to today's complex  
environmental issues...

**WILLIAMSBURG  
ENVIRONMENTAL  
GROUP, INC.**

We understand that your firm is a Virginia Stormwater Management Program (VSMP) Permit holder and we would like to earn your VSMP business. Williamsburg Environmental Group, Inc. (WEG) staff has more permit experience than any other consultant in Virginia and has provided permit compliance monitoring and inspection services throughout the Commonwealth of Virginia for over 20 years.

*Restored stream channel in Loudoun County following a temporary impact for utility installation*

**WEG has become the “go to” company** for environmental compliance services by keeping our clients’ needs our first priority. We offer cost-effective yet comprehensive construction related support services to keep your project on schedule. Our staff of engineers, regulatory specialists, certified erosion control inspectors, and technicians provide a team approach to help our clients maintain compliance with federal, state, and local permits. We know what questions to ask and how to keep projects within budget, moving forward, and in compliance.

**Our know-how helps to save our clients time, money, and “headaches”.**

## Environmental Compliance Services

### What we do:

- VSMP Permitting
- SWPPP Development
- Erosion and Sediment Control Plans
- VSMP Inspections and Monitoring
- Federal, State, and Local Agency Coordination

### What we can do for you:

#### Save you time:

WEG can help keep you on schedule. Our staff has extensive experience in obtaining VSMP permits required by the Department of Conservation and Recreation (DCR). We understand the review timing required by the DCR and will submit the registration for you in keeping with the 90 day prior to construction start timeframe. We will make sure that all VSMP permit inspections and reporting occur every 7 to 14 days and/or within 48 hours following a runoff producing storm event. The development of Erosion and Sediment Control plans and Stormwater Pollution Prevention Plans (SWPPP) are just some of the steps in the VSMP permitting process. WEG has the expertise to develop these plans prior to submitting the registration statement, keeping your project on schedule.

#### Save you headaches:

WEG can help keep things running smoothly and limit liability. Our staff has the experience to identify potential site problems often caused by field conditions or construction sequencing and to provide recommendations to prevent costly repairs and project delays. Should problems arise and violations occur, WEG staff can provide guidance and assistance throughout the remediation process. We can assess the potential impact of the violation and prepare strategies to bring your project into compliance with minimal time delays. Our engineers are also adept at modifying plans on-the-fly to accommodate field conditions. WEG provides on-site support to meet with agency personnel to achieve compliance, eliminating headaches for our clients.

#### Help with your billings:

WEG can simplify your billings. We have developed an in-house cost-savings billing system that can provide you predictable expenses, simplifying your monthly budgeting process.

## Did you know?

**WEG staff has more permit experience than any other consultant in Virginia.**

**We stand ready to assist you in obtaining a VSMP permit, as well as providing inspection and review services to assist you in compliance with all VSMP permit requirements.**

## Our Expertise Your Success

**Give WEG an opportunity to bid on your next project. Our cost-competitiveness and customer service will speak for itself.**
