Williamsburg Environmental Group, Inc. is dedicated to developing simple, cost-effective solutions to today's complex environmental issues without "headaches" for our clients.

---

# WILLIAMSBURG ENVIRONMENTAL GROUP, INC.

---

Williamsburg Environmental Group, Inc. (WEG) is a full-service environmental consulting and engineering firm that serves both the public and private sectors in providing cost-effective solutions to today's complex environmental problems. The firm offers specialized environmental services in the following areas:

- Water resources
- Wetlands
- Parks and Athletics
- Golf and Athletics
- Soils
- Regulatory and Permitting
- Wetland Mitigation
- Stream Restoration
- Construction Administration

The company was founded in 1990 and has grown from two partners to a present staff of more than 85 professionals in four offices located in Williamsburg, Richmond, Fredericksburg, and Herndon, Virginia. The multi-disciplined WEG staff includes licensed and registered professional engineers, landscape architects, planners, wetland scientists, ecologists, soil scientists, biologists and regulatory specialists who work closely with the client throughout the feasibility, planning, design and construction phases of a project.

## Services

---

### WATER RESOURCES

- Stormwater Management Planning and Design
- Hydrologic and Hydraulic Modeling/Analysis
- Water Quality Impact Assessments
- Dam Safety Permitting
- Watershed Planning
- Water Withdrawal Permitting
- Floodplain Modeling and Mapping
- Low Impact Development Techniques

### WETLANDS

- Wetland Delineation, Mapping, Monitoring, and Assessments
- Habitat Evaluation
- Environmental Impact Assessment
- Environmental Constraints Analysis
- RPA Delineations
- Threatened and Endangered Species Surveying
- Soil Characterization & Mapping
- Forest Stand Delineations

### PARKS & ATHLETICS

- Park and Athletic Field Design and Renovation
- Trail and Greenway/Playground Design
- Irrigation and Athletic Field Lighting Coordination
- Agronomy Plan Preparation
- Construction Specification and Cost Estimate Prep.

### GOLF

- Golf Course Site and Clubhouse Site Design & Construction
- Water Availability Studies
- Erosion and Sediment Control Design
- Environmental Constraints Mapping
- Pond and Lake Design
- Wildlife Management Plans
- Integrated Pest Management Plans

### SOILS

- Soil Mapping for Subdivision Planning
- Individual Site Evaluations for Drainfields
- Onsite Sewage Disposal Assessment

### REGULATORY and PERMITTING

- Wetland Identification & Classification
- Environmental Constraints Analysis
- Wetland Mitigation and Mitigation Banking
- Stream Assessment/ Classification
- Local, State and Federal Permit Support
- Soil Characterization and Mapping

### WETLAND MITIGATION

- Site Feasibility Studies
- Conceptual and Preliminary Engineering Design Documents
- Mitigation Banking Development
- Construction Management
- Planting
- Monitoring and Reporting
- Bid Document Preparation

### STREAM RESTORATION

- Habitat Assessments
- Rosgen Stream Classifications
- Watershed Studies
- Conceptual and Preliminary Engineering Design Documents
- Riparian Corridor Evaluations
- Channel Stability Evaluations
- Drainage Analysis
- Macro Invertebrate Analysis
- Monitoring and Reporting

### CONSTRUCTION ADMINISTRATION

- Erosion Control Plans
- Monitoring and Reporting
- Impact/Violation Assessment
- Construction & VSMP Inspections/Permitting
